

European Movement celebrates 9th of May across Europe with thousands of Europeans!

Today, 24 partners of the European Movement which cover 27 countries are celebrating the 9th of May – Europe’s Day. Hundreds of events are taking place.

“The European Union has been by far the most successful political cooperation in the World. That is why the 9th of May is a day for congratulation and celebration for all European citizens”, remarked Henrik H. Kroner, the Secretary General of the European Movement International.

Every year the European Movement International with its National Councils and Member Organisations organises a large number of public activities all around Europe to celebrate “Europe Day”, where it focuses on information about the EU and its goals, European culture and discussions about how to improve the functioning of the Union and where people have fun and celebrate.

“Through this celebration the European Movement reaches thousands of Europeans directly and encourages them to actively engage in learning Europe and discussing Europe,” concluded Henrik Kroner.

You can also read the Europe Day Message from Pat Cox, the President of the European Movement International.
